

Dear Dr. Henney,

I am writing to express my concern over the
FDA's regulation of genetically engineered
(GE) food. I request that the agency's current
policies be changed, and I support
all the points in docket #00P-1211\CP1

- ☒ All GE foods should be labeled so I am
informed and have a choice.
- ☒ GE foods should not be assumed to be
"generally recognized as safe" and should
have mandatory pre-market safety testing
to determine the long-term impacts to
human health and the environment.

(Additional Personal Comments:)

*I have 21 years of education. Respect my
ability to decide for myself - as the European
countries do for their citizens*
